AMERICA'S FAVORITE CUSTOM TRANSPORTS

Becker Automotive Design, based in Southern California, specializes in converting Mercedes-Benz vans, Cadillac Escalade ESVs and the Lincoln Navigator L into ultra-high end private mobile office vehicles. With over 25 years of development, Becker picks up where the original manufacturers leave you hanging. Discretion, privacy, productivity and safety are the hallmarks of all customized Becker vehicles.

Becker's lengthy and highly impressive client list includes some of the most accomplished personalities in Pro-Football. Starting with the GOAT, 7 time NFL Superbowl winner, Tom Brady. Brady had Becker stretch his new Cadillac Escalade ESV 20", with rear doors lengthened 10" for ease of entry and exit. Upgraded with ultra-comfortable custom VIP seating similar to top level private aircraft, it included two large, aviation-style adjustable folding tables, large LCD flat screens, a mobile office computer, a high tech internet router, a high fidelity 7.1 audio system and electric window blinds all controlled by a Crestron automation system. "I took pride in picking out all the customizations of the ESV; from the trim of the seats to the color of the rug. With such limited time in my busy schedule the ESV gave me those extra minutes to study my playbook, make phone calls and be with my family," Brady said.

When Philip Rivers learned he would have to commute from his San Diego home to the now LA Chargers' Costa Mesa facility, he reached out to Becker to create an SUV that was what the Chargers starting quarterback described as the "Best QB room ever!". "There may be some days," Rivers said. "Where we're hoping to get in a little traffic because we have more work to do!"

Russell Wilson of the Seattle Seahawks and his pop star wife Ciara are also proud Becker vehicle owners. They use custom Becker Cadillac ESV to conduct and make daily commutes. Good people, doing the good things, the right way.

Becker Automotive Design welcomes valued customer Matthew Stafford to the LA Rams.

Many of the NFLs team owners enjoy Becker vehicles. Jim Irsay, owner of the Indianapolis Colts, has two Becker Sprinter JetVans. Equipped with a first class interior, luxurious rear lavatory, custom hand tufted carpets, a world class audio/video entertainment system and advanced mobile office suite, Mr. Irsay and his Colts are ready to gallop anytime, anywhere!

The "just win baby" motto of the Las Vegas Raiders inspired Becker's stretched ESV build for team owner Mark Davis. Owners Arthur Blank of the Atlanta Falcons, Steve Biscotti of the Baltimore Ravens and the late owner of the Seattle Seahawks, Paul Allen have all entrusted Becker to build them the "Best of the Best" in executive transportation.

Of course, Becker's clients don't just end with top tier athletes and professional football team owners. Becker customers also include Heads of State, leading Wall Street executives, Silicon Valley entrepreneurs, Seattle world changers, movie and music studio chiefs, Hollywood celebrities, Royal Family members and VIP's from around the world.

Becker's reputation for excellence is unmatched, with first importance being the safety of their customers. All Becker modifications have been engineered to meet or exceed US Federal Motor Vehicle Safety Standards while maintaining all Original Equipment Manufacturer safety features. After delivery, service becomes their top priority. All this taken together makes it easy to understand what separates Becker Automotive Design from all of the rest!
