

## THE BECKER ADVANTAGE

Becker Automotive Design has been producing specialized VIP luxury transports since 1996. Daimler approved and in cooperation with General Motors and Lincoln, Becker leads the industry in transforming Mercedes-Benz Sprinter vans and full sized SUVs into some of the most productive, comfortable, safe and exclusive vehicles in the world today. Our reputation for excellence is unmatched, receiving Best of the Best awards from top tier international media, year after year.

## OVER 30 YEARS SERVICING THE WORLD'S ELITE

Becker has produced vehicles for heads of state, top business executives, celebrities and VIPs around the world. We have shipped our vehicles to over 25 countries on 5 continents. After delivery, follow up service becomes our number 1 priority.

## THE SIGNIFICANT DIFFERENCE

Expertise and experience in combining hand tailored interior craftsmanship with chassis modifications and leading edge electronics is a combination which sets Becker apart from all the rest. Becker provides unparalleled customer service with robust training provided to each client's operator and technicians, along with 24/7 standby live support. All Becker vehicles include an international 3 year, 36,000 mile warranty.

## UNCOMPROMISING SAFETY

Becker's first priority is the safety of their customers. All Becker SUV chassis modifications are accomplished using proprietary stamped steel body parts, reinforced with steel support ribbings. All modifications have been engineered to meet or exceed US Federal vehicle safety standards and maintain unobstructed full length OEM side curtain air bags.

## DISCREET SECURITY SOLUTIONS

Protection is a serious matter. Designed with the latest 3D engineering software, Becker provides solutions which integrate armoring with various surveillance and security measures while taking on-demand vehicle performance and handling to the next level.
